

## 2021–2022 SCHOOL YEAR UPDATE MEMO

### *Staff Vaccination Policy*

**Date:** August 27, 2021

**To:** High Point School Students, Staff, Families & School District Partners

**From:** High Point School Leadership Team

Dear High Point Community,

On August 23, 2021, the Office of the Governor of New Jersey announced a new policy concerning vaccination status of all state school staff members (*see screen shot at right*).

Specifically, it has been mandated that staff **either** be vaccinated by October 18 **or** submit to a minimum of one to two COVID tests per week.

We just want to assure our entire community that we'll be following this policy to the letter. As such, any as-yet-vaccinated staff members will have the choice of completing their rounds of vaccination no later than the October 18 deadline or we will require them to provide proof of weekly COVID testing.

We will of course keep you informed if any updates to this policy are released. Thank you so much for your cooperation.

Sincerely,  
The High Point Team
